CHARLES OWUSU AGYAPONG

Project Manager | Civil Engineer | QA/QC | Construction Management

0544 803 023 / 0501 372 904 • charles274@live.com • Haatso, Accra, Ghana • linkedin.com/in/charles-owusu-903b3b120

PROFILE

Civil Engineer and Project Manager with over 8 years' experience delivering building, road, drainage and structural concrete works for Ghanaian and international contractors, including Shimizu Corporation. Currently Project Manager at Krane Construction Ltd, leading contract delivery on the Stake Centre, Ejisu. Brings a strong quality background from running QA/QC on the Ashesi STEM Innovation Center, with a record of reliable, safety-focused delivery recognised by awards from Shimizu and the Department of Urban Roads.

CORE COMPETENCIES

- ▸ Project Planning & Scheduling
- ▸ Inspection & Test Plans (ITPs)
- ▸ Structural Design (BS 8110 / EC2)
- ▸ Contract Administration & Variations
- ▸ Site Supervision & Team Leadership
- ▸ HSE Compliance
- ▸ Quality Control & Assurance
- ▸ Material Testing & Concrete Works
- ▸ Stakeholder & Consultant Coordination

PROFESSIONAL EXPERIENCE

Project Manager
Oct 2026 – Present

Krane Construction Ltd | Ejisu, Ashanti Region

Project: *Construction of Stake Centre, Ejisu, for The Church of Jesus Christ of Latter-day Saints*

- Lead contract delivery as the Contractor's Representative, from site clearance through earthworks
- Manage setting-out, reduced levels and earthworks; coordinate with the architect and the client's project manager
- Handle site instructions, variations and contract correspondence, protecting the contractor's time and cost position
- Plan and monitor the works programme, resources and site team

QA/QC Engineer / Site Engineer
Aug 2024 – Present

Krane Construction Ltd | Berekuso, Eastern Region

Project: *Ashesi STEM Innovation Center*

- Developed and implemented the project Quality Control Plan, method statements and Inspection & Test Plans
- Carry out pre-pour, in-process and post-pour inspections of columns, beams, slabs and retaining walls, plus blockwork, MEP/HVAC and finishes
- Coordinate material testing (concrete cubes, rebar tensile strength, soil compaction) and approve results before subsequent works
- Verify materials and subcontractor work against specifications; raise and close out non-conformities
- Support the Project Manager with coordination, progress reporting and schedule recovery

Project Engineer
Aug 2023 – Oct 2023

DN Osei Co. Ltd (Newmont supporting services provider) | Ghana

- Contributed to project plans, design drawings, specifications and tender documents
- Monitored budgets, schedules and procurement of materials and equipment
- Supervised construction and quality control; supported testing, commissioning, close-out and as-built records

Site Engineer, Drainage & Concrete Works
May 2021 – Jun 2023

Shimizu-Dainipon JV, Shimizu Corporation | Assin Praso – Assin Fosu

Project: *Rehabilitation of N8 Road, Assin Praso – Assin Fosu*

- Led site teams of 12–16 workers on pipe and box culverts, precast side ditches, retaining walls, bus stops and concrete barriers
- Assisted the Construction Manager with planning, daily reporting and progress monitoring, including catch-up schedules
- Managed material requisition and site resources; ran daily toolbox meetings and enforced HSE standards
- Liaised with consultants, subcontractors and local authorities; cross-trained new staff on company procedures

Assistant Structural Engineer & Quality Control
Jan 2021 – May 2021

Architectural and Engineering Services Ltd (A.E.S.L) | Kumasi

- Performed structural analysis, design and detailing of buildings to BS 8110 and Eurocode 2
- Carried out building condition assessments and prepared structural integrity reports
- Prepared material quantities, work schedules and site quality control checks

Earlier Experience
2016 – 2021

Road, telecom and consulting engineering roles | Kumasi

Assistant Site Supervisor, Jubilee Contractors (Nov 2020 – Jan 2021): road construction supervision, site reporting and material management.

Site Engineer & Documentation Officer, Leadcom Ghana Ltd (May – Nov 2020): telecom tower foundation mapping and condition surveys; draft tower designs in AutoCAD; HSE training.

Assistant Consulting Engineer, Rocon Engineering Ltd (Jun – Nov 2019): road condition and feasibility surveys; geometric design in AutoCAD Civil 3D.

National Service Personnel, Department of Urban Roads, Kumasi (Sep 2016 – Sep 2017): road surveys, site inspections and geometric design support.

EDUCATION

MSc Construction Management
Jan 2026 – Jan 2027 (expected)

Kwame Nkrumah University of Science and Technology (KNUST), Kumasi

Coursework and examinations completed; thesis in progress

BSc Civil Engineering
2012 – 2016

Kwame Nkrumah University of Science and Technology (KNUST), Kumasi

AWARDS & CERTIFICATIONS

- Good Performance and Safety Award, Shimizu Corporation (June 2023)
- Certificate in Special Safety Training, Uni-House Global Ltd / Shimizu Corporation (February 2023)
- Best National Service Person and Project Management Certificate, Department of Urban Roads, KMA (August 2017)

SOFTWARE

Project management: Primavera P6, Microsoft Project

Design & drafting: AutoCAD (Civil 3D, Architecture), Revit, ETABS, PROTA Structures, PROKON

Office & other: Microsoft Excel, Word, PowerPoint, Access; working knowledge of web development
